

Computer Communication ED

Maria Kihl

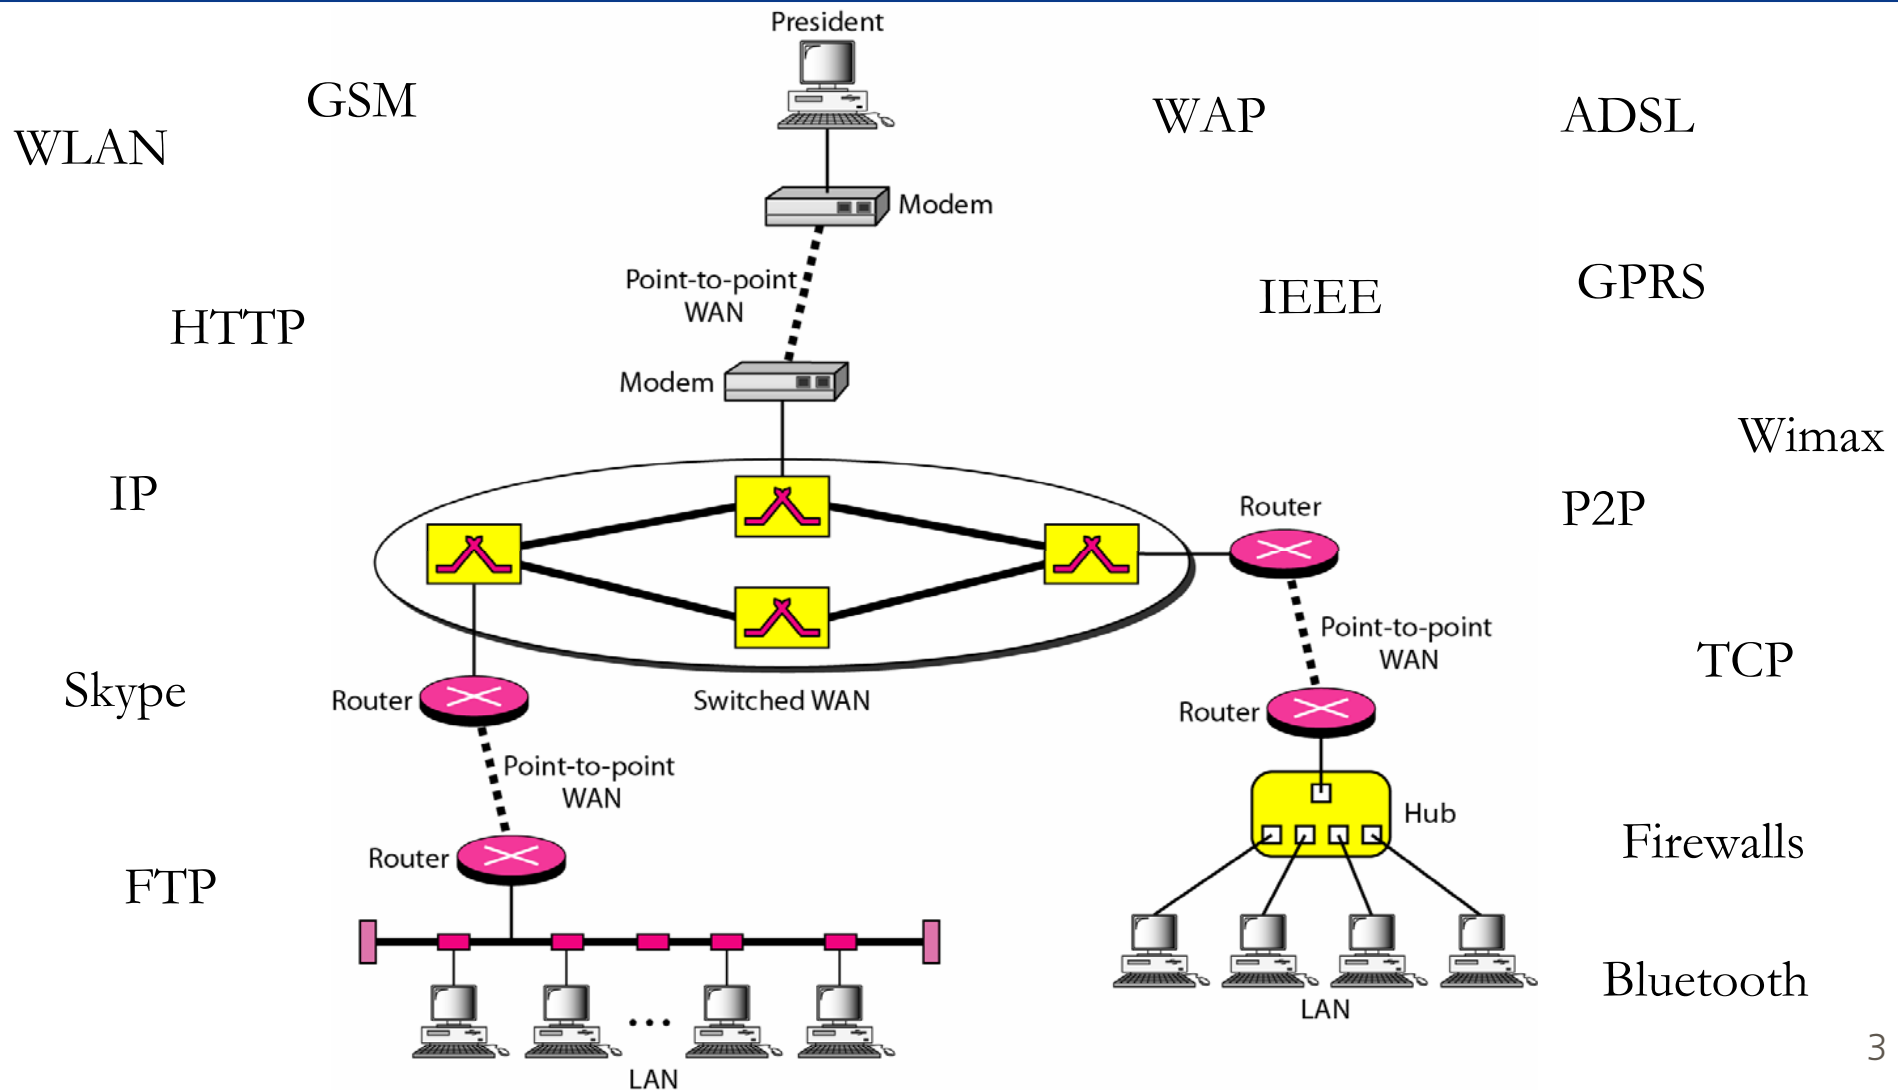

LUND
UNIVERSITY

Course objectives

- You should get an introduction to the area of data communication and networking, with focus on Internet.
- You should learn more about network management and control tools.

Why is this important?

Course content?

- 10 lectures
- 6 problem solving classes
- 2 mandatory laboratory sessions
- 2 voluntary midterm exams
- Final exam: 14/12

Course material

- Main textbook: "Data Communications and Networking" 4th ed. by B.A. Forouzan.
- Alternative textbook (in Swedish) "Datakommunikation – en inledande översikt" by M. Kihl. This book is used together with the compendium "Routern och routing – en introduktion" by J.A. Andersson.
- Material for the problem solving classes and laboratory sessions.

Lectures

Mondays 13-15, Aulan

Thursdays 13-15, E:A

10 lectures, look at the schedule for exact dates!

Problem solving classes

Tuesdays:

8-10: E:3315

10-12: E:3318 (E:3316)

13-15: E:0522 (E:1147)

15-17: E:3316 (E:3315)

The session at 15-17 will be given in English

The problem solving classes start next week.

Laboratory sessions

Two mandatory laboratory sessions:

Week 4-5: Point to Point Protocol (PPP)

Week 6-7: Networking

You need to sign up for each laboratory session.

Lists are posted according to the course programme.

Midterm exams

There are two voluntary midterm exams. Each midterm exam is worth max 10 credits that can be used for the final exam.

- Midterm exam 1: 13/11 at 13.15 in Aulan
 - Content: Lectures 1-5, problem solving classes 1 and 2
- Midterm exam 2: 4/12 at 13.15 in Aulan
 - Content: Lectures 6-10, problem solving classes 3-5

Peer-assessment

We will use peer-assessment (kamraträttning) during the midterm exams.

More information about this procedure will be posted on the course's webpage.

Final exam

The final exam is given 14/12 at 14-19 in MA:10.

The final exam is worth 100 credits, 50 credits are needed to pass the exam.

Foreign student?

Tutorial sessions will be organized each Monday 15.15-16.00 in room E:5169. The sessions start Oct 30.

It is important that you prepare questions before coming to the sessions.

Previous knowledge?

- Read through last years exam
- Classify yourself as between 1-5 where
 - 1 = knows very little
 - 5 = knows a lot
