Description

We will carefully check every item before shipment. The quality is guaranteed!

Note: Russian buyers were required to fill in the full name (normally including the name, father's name and surname,three individual words) in the shipping address to pick up the item as the Russian postal policy adjustments.

Features:

ESP8266 is a highly integrated chip designed for the needs of a new connected world. It offers a complete and self-contained Wi-Fi networking solution, allowing it to either host the application or to offload all Wi-Fi networking functions from another application processor.

ESP8266 has powerful on-board processing and storage capabilities that allow it to be integrated with the sensors and other application specific devices through its GPIOs with minimal development up-front and minimal loading during runtime. Its high degree of on-chip integration allows for minimal external circuitry, and the entire solution, including front-end module, is designed to occupy minimal PCB area.

SDIO 2.0, SPI, UART

32-pin QFN package

Integrated RF switch, balun, 24dBm PA, DCXO, and PMU

Integrated RISC processor, on-chip memory and external memory interfaces

Integrated MAC/baseband processors

Quality of Service management

I2S interface for high fidelity audio applications

On-chip low-dropout linear regulators for all internal supplies

Proprietary spurious-free clock generation architecture

Integrated WEP, TKIP, AES, and WAPI engines

Solutions

Supports APSD for optimal VoIP applications

Patented spurious noise cancellation algorithm for integration in SOC applications

Supports Bluetooth co-existence interface

Self-calibrated RF to ensure optimal performance under all operating conditions

Zero factory tuning

No external RF components

Specifications:

802.11 b/g/n

Wi-Fi Direct (P2P), soft-AP

Integrated TCP/IP protocol stack

Integrated TR switch, balun, LNA, power amplifier and matching network

Integrated PLLs, regulators, DCXO and power management units

+19.5dBm output power in 802.11b mode

Power down leakage current of <10uA

Integrated low power 32-bit CPU could be used as application processor

SDIO 1.1/2.0, SPI, UART

STBC, 1×1 MIMO, 2×1 MIMO

A-MPDU & A-MSDU aggregation & 0.4ms guard interval

Wake up and transmit packets in < 2ms

Voltage: 1.8-3.8V

Standby power consumption of < 1.0mW (DTIM3)

Dimension: 25 x 15 mm

Net weight: 2 g

Package weight: 12 g

Package included:
1 x ESP8266 Serial WIFI Wireless TransceiverR Module
(Retail package is NOT included)

- Payment and Shipping
1. We only accept PAYPAL.

2. Payment is to be completed within 14 days of the end of the auction. Please contact us if you can't make the payment promptly. Otherwise, we will reserve the right to relist the item and the unpaid item report will be made correspondingly.

Thanks for your bid.

1. Item will be shipped from Hong Kong post on the 48 hours after your full payment has been received.

2. Rate the seller on the time it took to mail the item, not the time it took you to receive the item!! See the ebay policy [here](#)

Delivery time:

---By Airmail: Generally, about 2-3 weeks to UK, USA, AU.

Thank You!!

---By Express: Generally, about 5-10 working days to UK, USA, AU. ---delivery to US, UK, Australia and Canada usually takes 7-14 work ing days;

---delivery to countries except US, UK, Australia and Canada usually takes 7-21 working days;

---We can also ship the item through express service like DHL, UPS, if you are ready to pay the extra charge. To know the details please contact us with email.

We ship to eBay address. Please make sure your address in ebay is matched with your shipping address before you pay.

The images are for reference only. Please take the item you get as the standard.

Please indicate your personal requirement, such as colors, packages, value of declaration etc, at paypal's message when you pay to us.

International Buyers Please Note:

Import duties, taxes and charges are not included in the item price or shipping charges. These charges are the buyer responsibility.

Please check with your country customs office to determine what these additional costs will be prior to bidding/buying.

We will NOT be responsible for any delay during delivery including but not limited to customs postage checking, strike, force majeure etc.

As a buyer, it is your duty to pay the tax when you make a order from abroad. Our price does not include taxes, VAT, or other hidden charges.

Note: Russian buyers were required to fill in the full name (normally including the name, father's name and surname,three individual words) in the shipping address to pick up the item as the Russian postal policy adjustments.

- I. If you are unsatisfied with our item or service, please follow the good eBay practice to contact us before leaving any feedback. We are committed to resolve all issues in a friendly and satisfactory manner. WE ARE HERE FOR YOU!
- We always reply to messages within 2 business days (We are off-duty on weekends). If you do not get a response from us, then please check your junk or spam mailbox or kindly send your message to us again as sometimes eBay would fail to forward your message to our mail box.
- Your opinions about our products or our service are much appreciated!

IoT

Complete SoC. Have very powerful microcontroller inside. May be this is the future of embedded devices. Atmel and Microchip will be obsolete soon.
