Product Name: Key Button Board & LED Module for Arduino UNO Mega2560 Re MCU

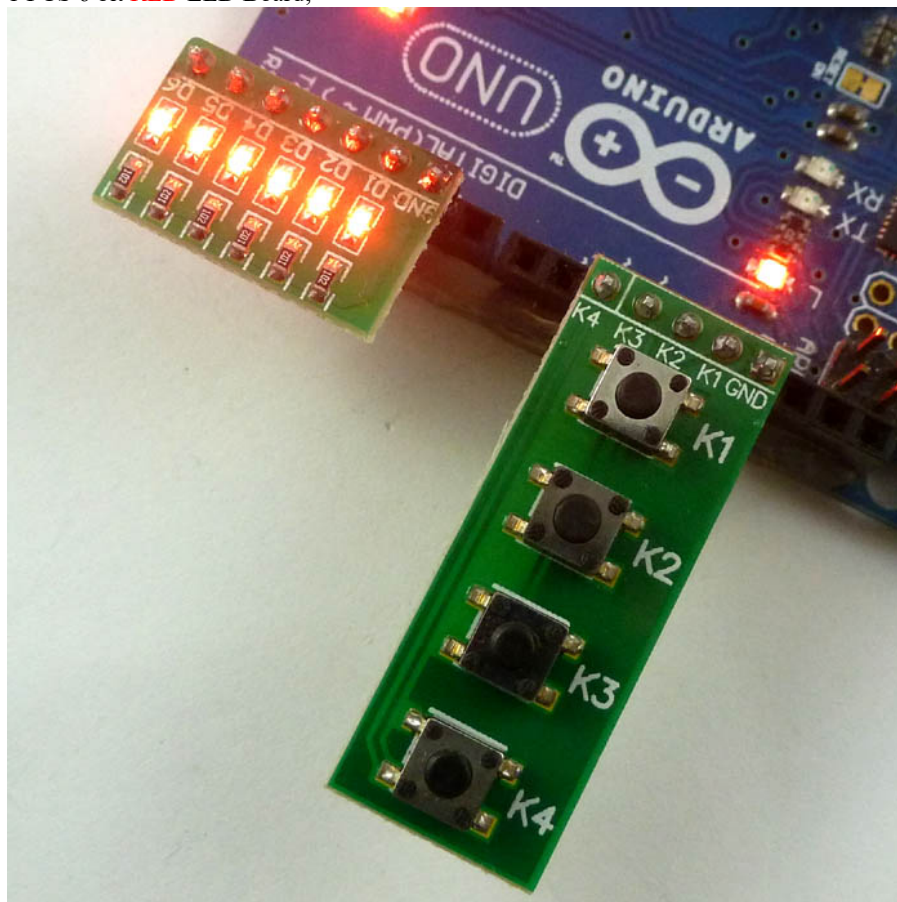

No matter how many pieces you buy the board, you only need 1 shipping

Module No.: TB375

Packing list(Does not include Arduino UNO):

1 PCS 4 button Key Board;

1 PCS 6 bit RED LED Board;

Description:

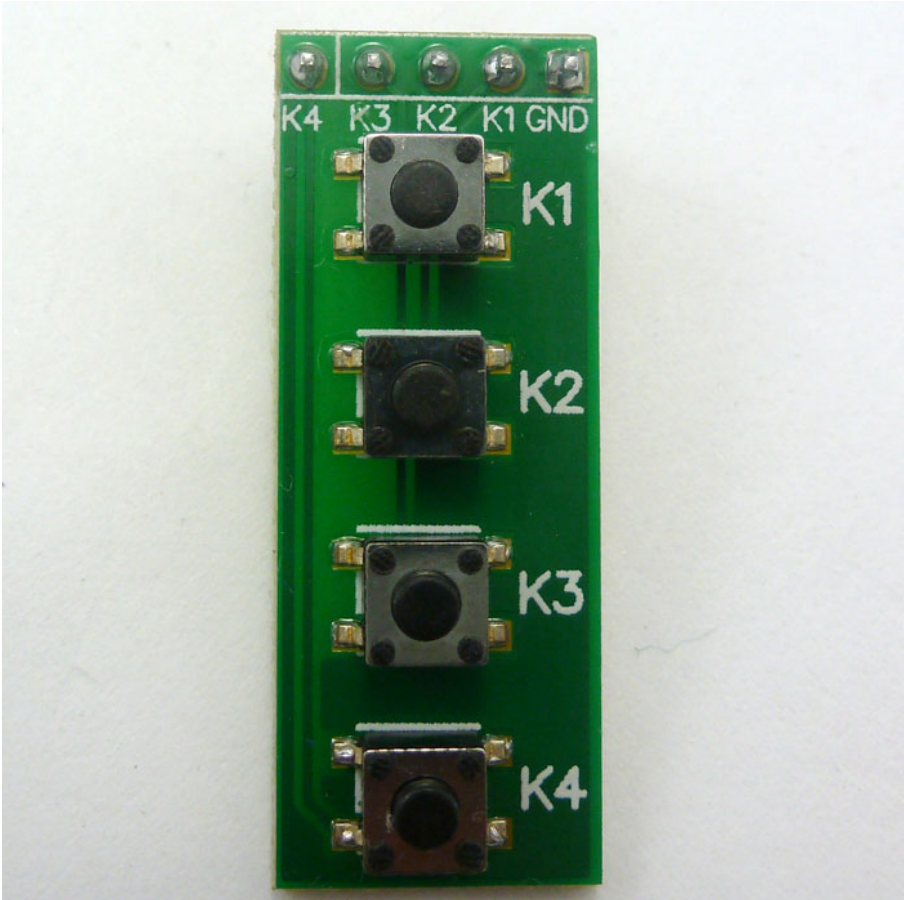

Can be inserted directly into **Arduino uno mega2560 due**, Ideal for linking up to your Arduino UNO Pro M Breadboard etc, or others MCU (AVR STM32 ARM7 ARM9 ARM10 PIC AT89C51 STC MSP430 STM8 Teensy etc.)

key board:

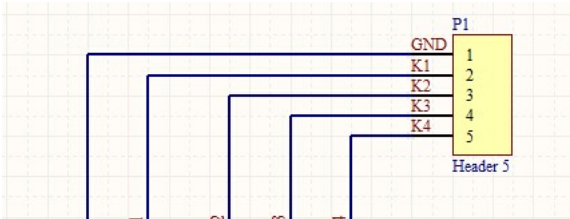

- 1 4-button Common Cathode key module .
- 2 " GND K1 K2 K3 K4" 4 PIN OUT 2.54mm
- 3 Power Supply Voltage: 3.3V-12V
- 4 Size: 12.7MM x 33MM.

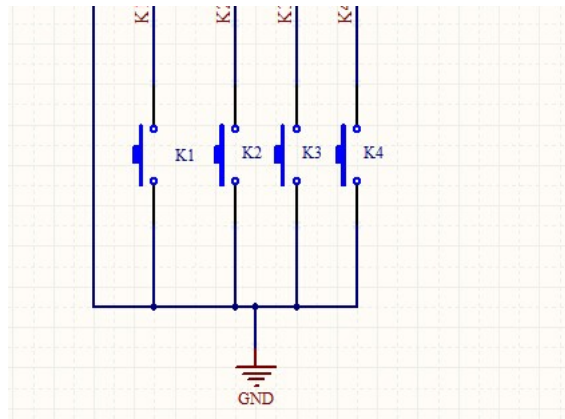

led board:

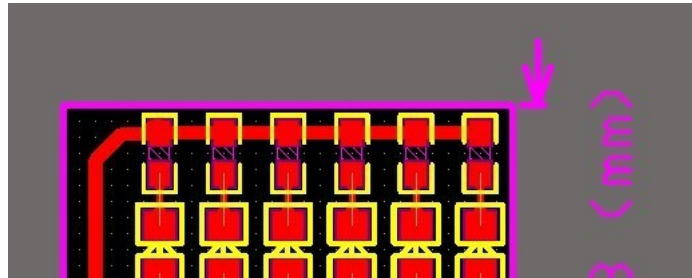

- 1 6 bit **RED** Common Cathode LEDs.
- 2 7 PIN OUT 2.54mm
- 3 1K ohm Limiting resistor
- 4 Power Supply Voltage: 3.3-12V;

Circuit schematics :

Arduino uno/mega2560 Code

```
//*****//
/*
Arduino_3key_6led
This example code is in the public domain.
*/
// Define key pin
int K1 = 13;
int K2 = 12;
int K3 = 11;
int K4 = 10;
// Define led pin
int GND = 6;
int D1 = 5;
int D2 = 4;
int D3 = 3;
int D4 = 2;
int D5 = 1;
int D6 = 0;
// variables will change:
int buttonState = 0; // variable for reading the pushbutton status
```

```
// the setup routine runs once when you press reset:
void setup() {
  // initialize the keys pin as an input.
  pinMode(K1, INPUT);
  pinMode(K2, INPUT);
  pinMode(K3, INPUT);
  pinMode(K4, INPUT);
  // initialize the leds pin as an output.
  pinMode(GND, OUTPUT);
  pinMode(D1, OUTPUT);
  pinMode(D2, OUTPUT);
  pinMode(D3, OUTPUT);
  pinMode(D4, OUTPUT);
  pinMode(D5, OUTPUT);
  pinMode(D6, OUTPUT);
  //Activate key pin internal pull-up resistors
  digitalWrite(K1, HIGH);
  digitalWrite(K2, HIGH);
  digitalWrite(K3, HIGH);
  digitalWrite(K4, HIGH);
  //as LED GND
  digitalWrite(GND, LOW);
}
// the loop routine runs over and over again forever:
void loop() {
  buttonState = digitalRead(K1);
  digitalWrite(D1, buttonState); //
  buttonState = digitalRead(K2);
  digitalWrite(D2, buttonState); //
  buttonState = digitalRead(K3);
  digitalWrite(D3, buttonState); //
  buttonState = digitalRead(K4);
  digitalWrite(D4, buttonState); //
  digitalWrite(D5, HIGH); // turn the LED on (HIGH is the voltage level)
  digitalWrite(D6, HIGH); // turn the LED on (HIGH is the voltage level)
}

//*****//
```

★Introduction for Shenzhen Canton-electronics Trading Co.,Ltd :

We specialize in RF Wireless Radio Transmitting Units and Receiving Units, the product include transmitters, relay(s), transmitting modules and receiving modules, are widely applied in RC toy, remote sensing, telemetry control, home&garden application.

★Shipping:

Normally shipping is by Airmail from China Post Air Mail or Hong Kong Post Air Mail ,15-60 days shipping country .

Express is available, shipping time is 2-7 days all over the world, and telephone number is needed. Please contact payment .

★Benefits

The Best Prices. By working with Canton-electronics Ltd, you can take advantage of the internet business, and other costs, and import your products directly from the manufacturer at incredible prices.

Prompt Delivery. Most units are in stock all the time, standard units will be completed within 1-3 days if they help for you if your project must be completed before deadline.

Prompt Service. Mails will be replied within 24 hours We work 6 days a week.

★Return Policy

All mails will be replied to within 24 hours except on weekend and holidays.

Every item is manufactured under Strict Quality-Assurance Guidelines. If you are dissatisfied for any reason to us, and we'll refund your money(not including shipping fees).

Please ensure that return items are not used.

Return items must be Posted within 7 days of receipt.

Please inform us via email before posting your return package.

★PAYMENT

•We accept PayPal only.

•We only ship item to your PayPal verified address.

•Payment must be received within 3 Days from the date of purchase.

•Please leave note in PayPal when making the payment if you have any special request (colors/size).

★Import tax :

We will dispatch the item as SAMPLE or GIFT, label the total amount on the custom declare invoice .

Import duties, taxes and charges are not included in the item price or shipping charges. These charges are to be paid by the buyer. Please check with your country's customs office to determine what these additional costs will be prior to buying.

Perfect

Bright LED, easy to mount. Butons are distinkt and "hard", but not debonounced, you need to fix this either in code, or by alittle soldering
