ADDITIONAL ASSIGNMENT OPERATOR

Consider the following statement,

```
numbers[loop] += 7;
```

This assignment += is equivalent to add equals. It takes the value of *numbers[loop]*, adds it by 7, then assigns the value to *numbers[loop]*. In other words it is the same as,

```
numbers[loop] = numbers[loop] + 7;
```

CLASS EXERCISE C17

What is the outcome of the following, assuming time=2, a=3, b=4, c=5

```
time -= 5;  
a *= b + c;
```
